ePix Presentation!

Promotional calendars offer the lowest cost per advertisement viewing of any promotional product as promotional calendars are seen an average of 10 times per day—every day throughout the year. A recent study by the Promotional Product Association (PPAI) found that 94% of people can recall the advertising message.

Promotional calendars are useful, appreciated and cost-effective. They have a measurable impact with a high perceived value, and can easily be used to complement other advertising media.

ePix is actually PERPETUAL calendar. Once installed, the user will see it on the desktop until it's uninstalled.
